Michael Beaver : Camouflage Uniforms of the Waffen-SS: A Photographic Reference (Schiffer Military / Aviation History) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Camouflage Uniforms of the Waffen-SS: A Photographic Reference (Schiffer Military / Aviation History):

I already had the Camouflage Uniforms of the German Wehrmacht so found much of this info repeating. If you don't already have the aforementioned book in your library, buy this one. If you do, save the money. My entire interest in buying both books was the M-44 four pocket camo

tunics and each book briefly mentions them and that is all. If you buy this book, you will be pleased. 0 of 0 people found the following review helpful. One of Beavers best books on Waffen SS uniforms By M. Jenkins One of Beavers best books on Waffen SS uniforms. I always go back to this book, even though I also have his 3 volume set. Worth every cent. 0 of 0 people found the following review helpful. Five Stars By robert dutton An excellent text for the collector!

Finally a book that unveils the shroud of mystery surrounding Waffen-SS camouflage clothing. Illustrated here, both in full color and in contemporary black and white photographs, this unparalleled look at Waffen-SS combat troops and their camouflage clothing will benefit both the historian and collector.
