In a series of heartwarming contemporary stories, Jodie Berndt gives a theologically sound description of the miraculous. All of the miracles she tells about have biblical references, but each one is unique. The stories come from her own experience and experiences of people she knows or has thoroughly researched. One diabetic man with black toes gets a whole new set of pink, chubby, baby-like toes. Another man whose voice is long gone agrees to "teach" a Sunday school class, and his voice returns as he teaches. These miracles were witnessed by many people alive today. Even though this book is "out of print," you can get it used through . It's a huge bargain for a small price. It will stimulate your faith! 0 of 0 people found the following review helpful.
