Hilarious Comeuppance for Insufferable BoorsBy Kate McMainsThis book is perfect for creating an antidote to any and all of those "bragalogue" Christmas letters that deeply boring people insist on sending each year. Hey, maybe if you send them one of these "wild" letters anonymously they'll even take the hint and save some trees and stamps next year. Of course, it's probably asking too much for them

to understand the joke, but that doesn't mean that the rest of us can't! This is a great gift for the merciless and mirthful.1 of 2 people found the following review helpful. Comedy Inspiration for All SeasonsBy Orr1551Home made gifts are always the best--except for that time I tried to make an "electric hammer" by gluing a power cord into the handle of a standard-issue ball-peen--and this book shows you how to write the perfect chatty news letter that will have your friends laughing. The letters themselves are funny and can be used as is, or just as valuable, they will spark your own imagination to create your own. Either way, a very useful and clever book. And great gift too.2 of 2 people found the following review helpful. Clever, Interactive Book To Create Your Own Prank Xmas LettersBy M. WhiteThis is very funny. Comes with a Word Document CD with a bunch of different crazy scenarios into which you can place the names of yourself, your family and loved ones, even your pet, to really turn those annual "catch you up on what's happening" Christmas Letters on their heads. Smart and hysterical.
