(Download free pdf) Classic Farm Tractors

## Classic Farm Tractors

**Cletus Hohman : Classic Farm Tractors** before purchasing it in order to gage whether or not it would be worth my time, and all praised Classic Farm Tractors:

The first in our new series of popularly priced tractor books, this classic volume is primarily a photo album with extensive, detailed captions. This broader look at tractors contains our trademark combination of quality color photography, rare archival images, and collectible brochures for an overview of farm tractors at an affordable price. Classic Farm Tractors covers all makes of North American vintage machines: John Deere, Ford, Farmall, Massey-Harris, Case, Oliver, Minneapolis-Moline, Allis-Chalmers, and Caterpillar-through the 1960s, as well as some of the famous European makes. Organized chronologically, it's a simple way for beginners to enjoy the history of farm tractors. A list of resources makes it easy for new hobbyists to access information about their favorite makes.
