Classic Hunting Collectibles: Identification Price GuideBy Richard HamiltonKnowing author Hal Boggess, I know his knowledge is second to none in the field of hunting collectibles. The photographs are just super and the price of the book is very reasonable. Books in this same field sell for double or triple the price and not nearly as well written as Mr. Boggess.All photographs are in COLOR. Amazing. This is just what we in the sporting collectible field need. I have read this book over and over. This is just the book needed by the hunting collectible community.His current listed item values is certainly in line with the current sporting collectible market. The values are listed below each of over 1100 color photographs.0 of 0 people found the following review helpful. Five StarsBy CustomerArrived as described in good condition. Was for a
