(Ebook pdf) Clock Watch Escapements

Clock Watch Escapements

W.J. Gazeley : Clock Watch Escapements before purchasing it in order to gage whether or not it would be worth my time, and all praised Clock Watch Escapements:

3 of 3 people found the following review helpful. Clear and thorough.By David ArnoldA classic text, he covers somethings better than anyone else I have found. A "must have" for watchmakers and clockmakers.1 of 1 people found the following review helpful. Authoritative and ClearBy cdThis is the most authoritative and easy to read book

on escapements. I bought it when dealing with a problematic crown wheel and Gazeley takes you through the repair in a clear and logical fashion. 0 of 0 people found the following review helpful. Five Stars By steve banother gift

Based on a lifetime's experience in the clock and watch-making trade, the author provides detailed instructions for making all types of escapements and for the location and correction of faults. This book has proved invaluable to all who are interested in the mechanism of clocks and watches both the craftsman responsible for the upkeep and repair and the collector seeking information about their history.

About the Author The late W.J. Gazeley was a highly respected craftsman as well as being a lecturer at the Northampton College of Advanced Technology, and horological consultant to The Watchmaker, Jeweller and Silversmith.
