(Mobile ebook) Coin World Comprehensive Catalog and Encyclopedia of United States Coins

## **Coin World Comprehensive Catalog and Encyclopedia of United States Coins**

**Coin World : Coin World Comprehensive Catalog and Encyclopedia of United States Coins** before purchasing it in order to gage whether or not it would be worth my time, and all praised Coin World Comprehensive Catalog and Encyclopedia of United States Coins:

0 of 0 people found the following review helpful. This book was useful for the reason I bought itBy The JudgeThis book was useful for the reason I bought it. I got it for verification of information. It gave me that and if it would not have, I would have been disappointed. If I did not think it was going to produce what I wanted, I should not have bought it in the first place. Conclusion: Use good judgment decisions before you buy....0 of 0 people found the following review helpful. Five StarsBy Leon AshI received what I asked for.3 of 3 people found the following review helpful. Detailed, interesting catalog of united states coinsBy A CustomerThis book has many similarities to the Red Book, but it goes into considerably more detail, alerting the reader to the rarity of many coins in high grades and adding information on rare, unusual coins such as the unique Jefferson nickel of the wartime issues struck with its mintmark in the original location. Such details make this book far superior to the Red Book, lacking only the yearly update of prices to truly dominate the field. It also contains a section on patterns, entirely lacking in the Red Book. Comprehensiveness and good formatting earn this book its high rating, and easily justify it as a general reference despite it's out of date status.
