Collectible Beads: A Universal Aesthetic (Beadwork Books)

Robert K. Liu, Liu : Collectible Beads: A Universal Aesthetic (Beadwork Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Collectible Beads: A Universal Aesthetic (Beadwork Books):

0 of 0 people found the following review helpful. Five StarsBy carolyn bachellVery informative book on the subject and lots of very clear colour pictures which are helpful.0 of 0 people found the following review helpful. Five StarsBy

Charlon GovreauReceived as described0 of 0 people found the following review helpful. A Plethora of Collectible BeadsBy M. BrownThis book has so many collectible beads and descriptions that it is helpful in identifying beads and their origin. However, I had hoped there would be more beads or characteristics that would help one identify a bead by the type of bead it is.

Beautifully illustrated, Collectible Beads meticulously explores and documents the rise and development of a

collecting passion. The authoritative volume takes readers on a rich and exciting journey of discovery, charting the tremendous worldwide growth over the last twenty years of ancient, ethnographic and contemporary beads as Collectibles. In celebrating the first and most universal form of personal adornment, Collectible Beads significantly furthers the recognition of beads as a revealing and inspiring symbol of humanity's cultural and spiritual aspirations.
