**Russell E Lewis : Collectible Fishing Lures (Warman's Companion)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Collectible Fishing Lures (Warman's Companion):

A very nice addition to his lure and book collection. I had no idea some of the books were as prized as the lures themselves. This isn't the most in depth collector's book but contains enough for

an experienced collector to appreciate. Lewis has been a collector for over 50-years and offers history and how-to information for those looking to get started. 750-color photos with plenty of detailed lures. This book was published in 2008 so may not be as up to date as other versions. However, it's a nice size to carry with you when lure hunting in flea markets and antique shops. Either way, lovely book and my dad is satisfied with this addition.0 of 0 people found the following review helpful. Five StarsBy mudmangood book0 of 0 people found the following review helpful.
