Informative bookBy suzik7I like this book because I collect miniature perfume bottles and needed a reference guide to help me identify what I have. It has lots of pictures and descriptive words to describe the bottles, their origins. Worth it.13 of 14 people found the following review helpful. Collectible Miniature Perfume BottlesBy A CustomerAlthough this is a cute little book with nice pictures, it is lacking in content.

Too much history and not enough pictures of what is available today. It did not include any monetary values, not enough pictures of miniatures from the past 25 years, not very interesting ...actually it was nice to look at once, but otherwise a waste of money. I have about 40 of these little bottles and only about 8 were pictured in the book. Pay a little more and get a true reference book.

Famous perfumers, fashion designer film stars, and celebrities have all introduced perfumes presented in exquisite packaging designed to enchant and seduce the public. The miniature perfume bottle began as a purely commercial offshoot, but soon became a popular collector's item as an immensely covetable object in its own right. Featuring over five hundred color photographs, Collectible Miniature Perfume Bottles is a treasure trove of beautiful flacons dating

from the nineteenth century to the present day, presented in thematic chapters covering classic, designer, popular, trademark and celebrity perfume bottles. Whether you are a long-term perfume bottle collector or novice, this book is sure to delight. But newcomers, be warned: once you start collecting, you won't be able to stop. . .
