"When I am working with colors, I feel like a painter. When I am working with metal, I feel like a constructor. And

when I am working with toys, I feel like a child." (Felicke van der Leest).The work of Dutch jewelry and object artist

Felicke van der Leest (born in 1968) expresses the very special affection that she has for animals. With unbridled fantasy she creates pieces that ostentatiously, colorfully and playfully revolve around her little friends. She combines techniques used in textile work, such as crochet, with valuable metals and plastic toy animals. Within the international art jewelry scene she has developed her own special language with which she narrates intelligent and witty stories with her animal protagonists; her pieces inevitably conjure a smile upon the faces of those who view them. Characteristic

for Van der Leest is the joy in her work, which is ever present yet sometimes carried off into childhood. Serious themes in her work are also expressed, including environmental protection and human approaches to animals. The current publication comprises jewelry and objects by the renowned artist from 1996 to the present. Text in English,

Norwegian and Dutch.
