able to compare the different arrowheads. The pictures and drawing are very good for comparison. Also this book has a very good listing of many different arrowheads that are not common.0 of 0 people found the following review helpful. Indian relic hunting and collecting is enjoyed by people of all ages - it is one of the most popular hobbies in our society today. Due to this popularity, there are numerous books devoted to the subject, but never before has there been such a handy informative guide for collectors. The new Field Guide to Flint Arrowheads Knives is designed for all collectors of Indian relics - both the hunters foraging for arrowheads in freshly plowed fields and the gatherers searching for finds at shows and from dealers. Its small size makes it ideal to carry along as a reference guide. Detailed photographs of over 200 authentic point types - most are shown at actual size - aid in quick identification. A wealth of essential information, as well as current values, helps the arrowhead and knife collector make trades and purchases with confidence. Lawrence and Steven Tully have been avid collectors for years and offer their extensive research in this remarkable volume. Priced at only \$9.95, it features 176 pages of descriptive information, current values, and guidelines and tips for collectors, making this book an essential part of field collecting. Beginning and advanced collectors will appreciate this new book. 2003 values.

Lawrence Tully has been studying Indian artifacts for over 50 years and he put all this knowledge into his books. This is the second of his books to be published, and it's a handy pocket guide for collectors. Hundreds of black and white photographs fill the pages of this quick reference. About the Author Lawrence Tully was an expert in the field of Indian arrowheads and artifacts and author of Field Guide to Flint Arrowheads Knives of the North American Indian and Flint Blades Projectile Points. He has since passed away.
