She takes cloth and turns into people that look real. Her art is gorgeous! The book has wonderful pictures and reading about her experiences moving through her work is terrific. I love this book and wish I could see her artwork in person.

Heck, I wish I owned a piece!0 of 0 people found the following review helpful. Beautiful workBy kebThis is an absolutely beautiful book. Lisa is very talented and has pushed my creative juices. Her figures are so life like. I am having trouble finding the fabric. I'll keep looking. I never give up.0 of 0 people found the following review helpful.

Doll Maker By Palmer Bloedow I have been setting my workshop up to do fabric sculpted dolls. I love this woman's work. It will provide me with the information I need to create some fabulous dolls.

Conceived, photographed and written by the artist, this important book is an in-depth study of her work, with more than 500 color photos. It features 36 of the artist's most significant pieces in panorama, accompanied by her notes on the creation of each one, a photo essay demonstrating the step-by-step process of creating a fabric sculpture and a 20-year retrospective of her work.
