Thank you Phil Elmore!!!1 of 1 people found the following review helpful. Great Read and Could save your lifeBy dimitrios fosterI read this book some years ago to brush up on flashlight fighting because it has been a few years since I have taken flashlight fighting classes. Some years ago though I was a fifth level flashlight fighter black belt, so it is like riding a car you never forget how. Okay, I was walking down an ally and my only protection was my flashlight and since I have a picture memory, I remembered what Phil Elmore taught me so I knocked out some homeless guy with my flashlight and took his money. After I brought some brews with the homeless guys money I thought to myself how great it is to be Merican.12 of 13 people found the following review helpful. How to get beaten with your broken flashlight!!By David H.If you somehow seem to forget your Street Long-sword, have no fear! While wearing your pedo-stache, make sure to have this surefire way of looking stupid at all times! Your best to chance is that your attacker see's that you are in fact insane after buying this book. If this does not work, be sure to check out my sequel: How To Get Beaten, While Wielding a Broken Flashlight.

A simple 6-inch flashlight is an extremely potent self-defense weapon if wielded properly and is among the few useful items one may carry that has yet to be legislated into liability. Guns are strictly controlled in some areas; knives are subject to as many if not more laws, some of them so vague that they defy interpretation. Collapsible batons, billy clubs, mace and pepper sprays are often illegal, but few, if any, regulations concern the possession of the common pocket torch. About now youre probably thinking that youre in deep trouble if the only weapon youve got is a battery-powered flashlight, but anyone who knows how to use a palm stick knows just how effective even a short length of rigid material can be. Thrust into the bodys soft targets, joints and other vital areas, it can debilitate and even kill an attacker.
