Lawrence Tully has been studying Indian artifacts for over 50 years and he has put all this knowledge into this book, first printed in 1986. Each artifact that is pictured is photographed to actual size and there are hundreds of good sharp photos of primary, modified, stemmed, notched, and ceremonial blades and projectile points. This is the definitive guide to the many artifacts of the North American Indian. No values. AUTHORBIO: Lawrence Tully is an expert in the field of Indian arrowheads and artifacts, andauthor of Field Guide to Flint Arrowheads Knives of the North

American Indian and Flint Blades Projectile Points. REVIEW: This book is designed for students and collectors of North American Indian artifacts, and is the result of many hours of research and correspondence, endless miles of travel, and the efforts and cooperation of numerous Indian artifact collectors. Many of the pieces and collections in the book are shown for the first time.
