He practically slobbers drools when paging thru them. He swears by the info included and is constantly showing me items he thinks I would love. I do have to say for a non-gun person like myself; when I DO want some info, the digest is laid out very logically. Even I can find what I'm looking for. And the pictures are great. Some folks save Nat'l Geographics. We have a special shelf for Gun Digests!0 of 0 people found the following review helpful. Five StarsBy Earl Morknice1 of 1 people found the following review helpful. 5 StarsBy Ray SandersGun Digest's are always great, the article on the Petersen Collection was fascinating, I could spend days looking at that collection. The article on gun engraving, was really nice. Its has always intrigued me, in how much art can be put into the metal of guns. Then there was the truth about the .223 vs 5.56., really needed that, since I like that caliber a lot, and have both guns.
