This text comprises a wonderfully detailed and expansive handbook for crafting in a variety of common mediums, including metal, leather, wood, rope, yarn, pottery, and stone. This is the perfect book for anyone with an interest in crafting, but will particularly appeal to those who like to use a number of different materials in their creations. Many antique books such as this are increasingly costly and hard to come by, and this test is republished here in the hope that its lessons can continue to be of use to those interested for years to come. This antique book has been elected for modern republication due to its timeless educational value, and we are proud to republish it now complete with a new introduction on the subject.
