Was in terrific shape, and I'm thrilled to have it for reference.0 of 0 people found the following review helpful. Five StarsBy Knit MoreNice all-in-one reference book. Good condition - just as described.1 of 1 people found the following review helpful. A Master of the PracticalBy Maury LogueAn improved version of his classic loom technology tome. It is done in his

uniquely firm, matter-of-fact manner that is based on his broad weaving experience. It is a true reference book.

Considered a classic almost from its day of first publication two decades ago, Handloom Weaving Technology remains the most complete and detailed book in the field. It presents a comprehensive picture of the technology and mechanics of handloom weaving, now updated with a chapter on the use of the computer. (7 x 10, 350 pages, bw photos, diagrams, charts)
