Nowhere else can you find the definition and dates of the marks on back of all the china and stoneware pieces and patterns, plus a history of the family business. Great book.1 of 1 people found the following review helpful. Great referanceBy Sheryl BeardsleyIf you like or are interested in Spode china, this is the book you should have to be able to date the dishes!5 of 5 people found the following review helpful. bluewillow opened the door for me into the world of chinaBy Renee GroverAnd this book has played a big part-It contains marks from the begining-1749 and even goes into the earlier markers-it is great for those who are reseaching china and the marks on them-I found it at my local library-It contains some pictures black and white-but you can still see details and the marks are wonderful though your eyes can blur if you look at them too long!I would really like to thank Robert Copeland for writing this book and yes he is the great great grand son of the original Copeland-I highly recommend it to those who share an interest in all types of China and or Pottery.

The potter's custom of marking his work enables the collector to identify the age, shape and pattern, and sometimes the artist, retailer and importer, of any given piece. This guide contains every known mark ever used by Spode, Copeland, and Copeland and Garrett, in a single volume. It contains over 300 marks and is heavily illustrated. The author of this

book, Robert Copeland, is the great great grandson of William Copeland, Josiah Spode's original partner.
