the following review helpful. excellent for the beginner and advanced collector. By A Customer This book is one of the main reasons my 3 daughters and I began collecting beanies. We did not know where to start in our search. This book made it so simple and enjoyable that we have become avid collectors and enjoy working together as a group. My daughters are 10, 8, and 6, thanks for giving us the ability to have a project together that we can enjoy. We never would have known what to do without this book. Even my 18 month old loves the pictures in this book and will cry if we take it away from him. It is teaching him his animals. See, this book has a multipurpose use!!!
