EXCELLENT RESOURCE FOR COLLECTORSBy Stargazer67I own the 4th edition along with this book to help me inventory my collection - I do notice some small errors in the book that I will contact the publisher about. BUT - for the money you can't get much better - THOUSANDS of photos, MASSIVE inventory old and new - pages are think, good quality allowing a red sharpie marker for checking your inventory in the book. Prices are fair and accurate. Images are clear and book we well made. If you have a very large collection this is a fantastic guide (multiple editions combined are helpful)0 of 0 people found the following review helpful. Five StarsBy jvMust have for any Star Wars collector!0 of 0 people found the following review helpful. Great book for any Star Wars collectorBy CustomerGreat book for any Star Wars collector. Includes high res pictures of most toys and collectibles, as well a check boxes and pricing guides. I have learned a lot from this book, and look forward to using it to further my collection, as well as collecting knowledge.

Assembled for the first time are all the Star Wars toys from that galaxy far, far away. This edition focuses solely on the toys, with the thorough text and exhaustive listings dedicated to the documentation and appraisal of generations of favorites from around the globe. Over 8,600 color photos, many not seen in any other publication, help to decipher finds from the common to the rare and exotic at local shops, online, and abroad. Covered here are toys ranging from action figures and their vehicles to weapon toys and yo-yos. Designed as an independent authority on Star Wars toys from 1977 to 2012, this book is a complimentary companion to the Star Wars Super Collector's Wish Book. For anyone with a passion for toys past and present or the epic Star Wars films, this book is a rare gem.
