I know that taking photos of clear glass to display the etching pattern is not the easiest thing to do - I do it on Ebay all the time - but the attempt failed miserably here. I call it a waste of my money.0 of 0 people found the following review helpful. ... expecting- I had hoped for a book that would easily help me identify glass patterns but instead this book ...By Mary B MyersNot at all what I was expecting- I had hoped for a book that would easily help me identify glass patterns but instead this book focuses on 1 or designs by each Mfr. From the Publisher I've had a new appreciation for fine stemware since working on this book. No more jelly glasses for me! But it only stands to reason that a fine wine deserves an elegant wineglass, and there are patterns to suit any taste.

I lean toward the mid-century moderns myself take a look at page 174 for the top five patterns in that category.--
