RobinsonThis new series of books from Peko follows in the tradition of the Panzerwrecks books. However, each volume focuses on a primary vehicle and covers it from start to finish. I would strongly recommend this and the other books in the series to anyone interested in the photo documentation of World War II afvs.0 of 2 people found the following review helpful. The fourth volume of PeKo Publishings photo-monograph series, Sturmgeschutz III on the battlefield 2, has the publishers usual corporate image displayed. The hardcover, landscape formatted books brief introduction is followed by more than a hundred mainly unpublished photographs, published in the highest possible quality. Both the introduction and the captions are bilingual (English / Hungarian).
