(Mobile library) Switchblade: The Ace Of Blades

Switchblade: The Ace Of Blades

Ragnar Benson : Switchblade: The Ace Of Blades before purchasing it in order to gage whether or not it would be worth my time, and all praised Switchblade: The Ace Of Blades:

0 of 0 people found the following review helpful. not because it's good, it isn'tBy not me!!one of the first if not The first switchblade book written.an absolute "Must Have" for the switchblade collector. not because it's good, it isn't. JUST because it's the first one. full of nonsense, written by someone that knows fairly close to NADA about knives

and especially switchblades. entertaining in it's misinformation. a absolutely wonderful book for children (i would have killed for this book when a child). if you can buy it cheap, buy it just to have. 1 of 1 people found the following review helpful. No bang for your buck. By Greg Atherton This book may be an edited version of an older work, but after two passes you would think that it would be better. There is scant little information in this book which was touted as being a reference about switchblades. I've collected for over sixty years and found this short and inadequate on all fronts. The most involved chapter of the book basically stated that OTFs were week sprung and held a mediocre description of how the mechanism worked. I was very disapointed with the book and would not recommend it to anyone. 1 of 1 people found the following review helpful. It s okay... By C. G. Was somewhat unimpressed with overall content, but it did have some personal stories of some interest. IF you can find this at a cheaper price, it might amuse you to read. As, I understand, it is one of the very few books on the subject.

Snap. For most people, the click of a switchblade is an ominous sound. Once the symbol of the street hoodlum, these knives are experiencing renewed interest from those who understand the value of a good one-handed blade. Now get solid information on laws, uses, types of mechanisms and more.

About the Author Ragnar Benson is America's most-esteemed survival expert. He has written more than 20 books for Paladin throughout the years on a variety of topics covering everything from weapons to politics to survival medicine.
