Textile Art of Japan

Sunny Yang, Rochelle M. Narasin : Textile Art of Japan before purchasing it in order to gauge whether or not it would be worth my time, and all praised Textile Art of Japan:

A very nice overview of Japanese textiles for us interested laypeople.0 of 0 people found the following review helpful. Five StarsBy patricia a wadenice book on textile tradition7 of 7 people found the following review helpful. Very basic introduction to Japanese textilesBy CRI keep this book on my shelf for when I need to find a quick reference to something in the field of kimono textiles. It's not an in-depth text, but the color photos are nice and it's not too thick so you can find the page you're looking for easily. It's a good start for someone just getting in to Japanese textiles, but if you've already got a library of books on the subject, you might give this one a miss.It's a good book for the hobbyist, but not much use for the serious textile collector.
