Textile History and the Military (Textile History Journal)

Marie-Louise Nosch : Textile History and the Military (Textile History Journal) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Textile History and the Military (Textile History Journal):

1 of 1 people found the following review helpful. Well done study. By Dean Robinson I purchased this journal for the article on the development of French Army kepis. That article was excellent. The rest of the journal is very good, although perhaps with too much emphasis on small, lesser known militaries. 0 of 0 people found the following review helpful. Serious's textile stuff By Dr Annette M Gero And excellent serious book for the textiles Enthusiast, academic papers with many references. Is very useful guide for the serious reader 0 of 0 people found the following review helpful. Five Stars By A'donna Richardsongreat addition to my Quilt History library

The issue consists of twelve papers which were originally delivered at the International Conference on Military and Textiles in 2008. The important but frequently overlooked connection between textiles and the military is addressed in this supplementary issue by academic historians, museum curators and conservators, archaeologists and military experts from a range of disciplines and fields of study. Between them the twelve articles explore the use of textiles in uniforms and equipment, the organization of production and distribution of military requirements, and the interaction of military and civil society, over a wide geographical region from medieval times to the twentieth century. (Maney Publishing 2010)

About the Author Marie-Louise Nosch is Director of the Danish National Research Foundations Centre for Textile Research, University of Copenhagen and Research professor at the SAXO Institute, University of Copenhagen.
